EXCITER

The *Exciter* is an easy-to-use, deep diving Jerk Bait. Available in three sizes and 10 colors. All *Exciters* are cut from white pine. Stainless steel eye screws and cotter pin hook attachments. Epoxy coated to prevent paint peeling. All *Exciters* are properly weighted for optimum lure action.

Medium size will dive to a depth of 4 feet and the Large will reach 6 feet. The Large is effective well into late fall because of the slow retrieve that can be used while still attaining its depth.

The Medium can also be used very effectively as a Twitch Bait and danced slowly along weed edges and drop offs.

The Baby Exciter can be used as a Twitch Bait and is very effective on Smallmouth Bass. It is a very effective jerk bait and can also be used as a crankbait.
